

Effective participators

Show interest in things that affect you

Try and make improvements for all

Take action

- I talk about issues I am concerned about.
- I can give a case of action that persuades people that it needs action!

- I can give ideas for ways forward and break them down into steps.
- I can identify things that could be improved that would be good for everyone.
- I can try to influence others with my views on an issue.

- I can give a case for views on something that are a bit different from my own views.
