

Topic, Science

Week Beginning 15th May 2020

Predator

This week, we are going back to our predator topic. Do you remember writing your own Haiku poems? A Haiku poem is a poem that has:

- Three lines, that do not rhyme, with seventeen syllables.
- Five syllables in the first and third line, and seven syllables in the second line.

Here is an example: PREADATOR

Silently circling,
Watching with its beady eyes.
Ready for a kill.

Can you create your own Haik poem, either for a predator or prey?

Don't forget- you can get help with your work or send pictures of what you have been doing by emailing wdv.year3@oasiswoodview.org

Science- Movement and Feeding

Your task this week is to choose a dish of your choosing. This could be from your own country or a different one. For example, you could choose a Paella. This is regarded as the national dish of Spain. Once you have chosen your dish, your task is to label the ingredients, identifying the different food groups in it. Here is an example:
